

# Are you ready to become a **HOMework CLUB HERO?!**

## **WHAT IS HOMework CLUB?**

Homework Club is a not for (financial) profit organization that provides free tutoring and learning support to kids in East Vancouver through an after school program run out of Britannia Secondary School. The Club operates four days a week and provides a safe and welcoming learning environment for students in grades 8-12. On top of providing academic support, Homework Club also offers food for students to eat while they study, or to take home if need be, as well as financial aid for post secondary education in the form of bursaries and scholarships.

## **WHAT IS A HOMework CLUB HERO?**

A Homework Club Hero is an individual or business who believe in creating a stronger society by supporting a more equal access to post-secondary education for students who may not otherwise be able to afford the cost of applying and attending college or university.

A Homework Club Hero commits to supporting a student from grade 10 through grade 12 by committing to a monthly donation of \$249 for those three years.

## **WHAT STUDENTS ARE SELECTED TO BE SUPPORTED BY A HOMework CLUB HERO?**

Students who show high academic potential and financial need will qualify to be supported by a Homework Club Hero. Students must attend Homework Club regularly and must use the financial support upon graduation for postsecondary schooling.

## **IF \$249/MONTH ISN'T POSSIBLE BUT YOU STILL WANT TO INVEST IN OUR STUDENTS' FUTURES, BE A HOMework CLUB HELPER!**

Homework Club Helpers are smaller businesses and individuals who are also committed to a three year pledge of monthly donations to support a student through their grade 10 to 12 years with a monthly donation of \$99 per month.

Like Homework Club Heroes, Helpers are directly supporting those of our students with high academic potential and financial barriers to post-secondary education opportunities.

## **WHY WE NEED MORE HEROES LIKE YOU!**

Many of our Homework Club students reach grade 12 as bright, capable young adults. However, not all of them are able to go on to pursue their life dreams at university because they simply cannot afford the tuition fees. Some can't even afford the application fees to even give themselves a chance to apply and go on to potentially receive scholarships or other support  
With your help, we can change that.
